## pCAMBIA™ Vector Order Form Non-Profit Institutions Only

Many of these vectors contain the *E.coli gusA* gene in fusions that are covered by patents, for which CAMBIA is able to provide licenses for use in agriculture and related research. If you work in a non-profit or academic institution and are doing work that is not on behalf of a for-profit company or aimed at commercialization, you may use this form to order pCAMBIA vectors. Otherwise, please write to us at [licenses@cambia.org](mailto:licenses@cambia.org).

Vectors containing the *Staphylococcus sp. gusA* "GUSPlus™" gene are available under the terms of a [BiOS license](#) and therefore require a separate order form.

*The charge made for these plasmids is solely to cover costs of production and distribution.*

Name: \_\_\_\_\_

Institute: \_\_\_\_\_

Postal address: \_\_\_\_\_

Street address: \_\_\_\_\_

Tel: \_\_\_\_\_ Fax: \_\_\_\_\_ E-mail: \_\_\_\_\_

Please send me the following plasmids (provided as 100ng samples blotted on paper):

### Orders from within Australia

- Complete kit of 27 plasmids - AU\$220 (inc. GST)
- Individual plasmids - AU\$50 each (inc. GST) Plasmid No. \_\_\_\_\_

### Orders from outside Australia

- Complete kit of 27 plasmids - US\$150
- Individual plasmids - US\$35 each Plasmid No. \_\_\_\_\_

### Ship by:

- Regular airmail (7-14 days, cost included)  Registered airmail (7-14 days, add US\$15)
- Federal Express  UPS (Cost not included. Please provide own account number below for charging purposes.)

### Pre-payment:

- I enclose a cheque in the sum of AU/US\$\_\_\_\_\_ made payable to CAMBIA.  
(US\$ cheques must be drawn on a United States bank)
- I have paid AU/US\$\_\_\_\_\_ via the payment service PayPal ([www.paypal.com](http://www.paypal.com)) to [paypal@cambia.org](mailto:paypal@cambia.org)
- I have instructed my/our Bank to make payment of AU/US\$\_\_\_\_\_ direct to:  
National Australia Bank, 39 London Circuit, Canberra, ACT 2601, Australia.  
Account name: CAMBIA. Account No: 082962 620957129. SWIFT Code (overseas payments): NATAAU3302S

**IMPORTANT: Your bank may use an intermediate bank to send a wire transfer. Intermediate banks often deduct their fees from the wire transfer amount. Please ask your bank to calculate these fees in advance and add them to the amount you send.**

**Please note that we are unable to accept your order unless you acknowledge by signature that you have read and agree to the usage restrictions set out below.**

### **pCAMBIA VECTORS - Non-commercial Research License Agreement**

The *E.coli gus* gene in this material is protected under US Patent Nos. 5,268,463, 5,432,081 and 5,599,670 and GB Patent No. 2,197,653C. The *Staphylococcus* sp. *gusA* (*gusA<sup>SSP</sup>*) gene in this material is protected under US Patent No. 6,391,547, Australian patent 760275, and patents pending elsewhere. Subject to the usage restrictions below, recipients have permission to use these genes.

#### **USAGE RESTRICTIONS**

These vectors are provided only to academic or non-profit research organizations for non-profit purposes only.

Commercial Use: A license is required (i) for any commercial use of either *gus* gene including research and production purposes directed at eventual commercialization, regardless of academic or non-profit status; and (ii) for use by any commercial entity. This is not the order form to use for commercial entities. Information about commercial licenses for *GUS* may be obtained by e-mailing us [licenses@cambia.org](mailto:licenses@cambia.org) or by writing to us at CAMBIA, GPO Box 3200, Canberra ACT 2601 Australia.

Academic and Non-Profit Laboratories: No CAMBIA vectors may be distributed further to eligible third parties outside your laboratory unless the recipient receives a copy of this notice and notifies CAMBIA of agreement to be bound by its terms.

Other intellectual property rights: Other components of the vectors and their use may be subject to the intellectual property rights of other parties, for example in some jurisdictions the hygromycin resistance gene and its use may be subject to the rights of Novartis (the assignee of record) or another party that may have acquired these rights. Users are responsible for ensuring that all relevant licenses are obtained for any protected use of these vectors. CAMBIA accepts no liability for non-licensed use. It is the responsibility of the user to obtain permission of such third parties if applicable. CAMBIA does not warrant freedom to operate in any jurisdiction.

Attribution: Users will cite the provision of these vectors in their published and unpublished works by explicitly stating that the clone was constructed in "pCAMBIA" as part of the description of the new cloning. No vector derived from such clonings should retain only a pCAMBIA designation, as these designations are reserved for vectors developed and distributed by CAMBIA and its partners.

For the pCAMBIA GUS vectors, please make reference to GenBank accession nos. AF234290-AF234316.

#### **WARRANTY**

This material is provided without warranty of merchantability or fitness for a particular purpose or any other warranty, express or implied, and without any representation or warranty that the use or supply of the material will not infringe any patent, copyright, trademark or other right. **CAMBIA and its employees and agents shall not be held liable for any use of the material transferred to you under this notice. You agree to hold CAMBIA and its employees and agents harmless for any loss, claim, damage or liability, of whatsoever kind or nature, which may arise from acceptance, use, handling or storage of the material by you.**

**I have read and agree to be bound by the above terms.**
